## PICCOLA VENEZIA - LITTLE VENICE

Walking along via Piella, you can stop at number 2 and look through the window facing the Moline canal. The Moline Canal is the only canal visible nowadays from network canal running underground.

## VOLTONE DELLA' PODESTA - THE PODESTA'S VAULT

In the past this place was notorious for public execution. Under the vaults the acoustic is very good so in the past (during the plagues) use this place for confessions in order not to be contaminated to keep the infected people at a distance.

## NEPTUNE FOUNTAINS

Get the name for the Neptune. Tourning twice around the fountain brings good luck for your school exam. The bronze statue is imposing. Neptune's organs are much smaller with the respect of the rest to the body because at the time they didn't show is naked but when the sun hits the statue casts a shadow that makes it seem larger organs. The logo of the Maserati company is based on the trident of Neptune.

## BASILICA OF SAN PETRONIO

This basilica dominates Piazza Maggiore. The project of the built had to be abandoned because the Pope did not like the idea of a church bigger than St. Peter in Rome. Inside on the floor you can find depicted the 12 zodiac signs.
